

Investment Associate Private Equity

(m/f/x), based in Munich

Who we are

EMH Partners is a Munich-based, founder-led growth investor with more than €1.5 billion equity under management. We focus on technology-driven business models and are looking for growth opportunities that have a strong entrepreneurial / family-owned heritage and a sustainable USP in highly attractive markets (incl. Software, Healthcare, Industrial Tech). As a next-generation private equity company and one of the leading growth investment firms in the DACH region, EMH Partners supports the growth of Mittelstand companies with capital, digitization, and expansion expertise.

Key responsibilities and tasks

- Analyze a broad spectrum of sectors and target companies
- Conduct industry studies and market analysis for the identification and conversion of potential opportunities
- Build financial models to assess and identify key value drivers and financial attractiveness
- Lead financial and commercial due diligence workstreams
- Prepare deal proposals and investment decks for the investment advisory committee
- Take responsibility for individual workstreams of portfolio management and value creation initiatives

Personal skillset and competencies

- Strong analytical and financial skillset with experience in financial modelling
- Excellent business analysis skills as well as commercial judgement, demonstrated by an ability to form a balanced view on business models and thoroughly assess deal opportunities and risks
- Well-developed project management skills, strongly result-driven with an ability to build rapport with stakeholders, set targets, control progress and drive results
- High interpersonal competencies and persuasive communication skills
- Strong passion for the German Mittelstand and to work with entrepreneurs
- High level of drive, self-starter as well as team player mentality
- Fluent in German and English

Educational and professional background

- 3–4 years professional experience in private equity and / or at a reputable strategy consulting firm or investment bank
- Advanced degree in business administration / management, economics or finance
- Excellent academic track record
- Sector experience in the industrial technology space (e.g. energy transition & electrification, industrial automation, building technology, consumer technology, circular technology) is a plus

Please apply
